Please Note:

ADOA makes a continuous effort to keep prescription medication benefits affordable to members by evaluating our formulary with respect to how effective a medication is to treat a certain condition, and the cost of similar medications to treat the same condition. Formulary decisions are based on this information and ongoing evaluation. Below are specific formulary exclusions:

- Prescription medications that have over-the-counter (OTC) equivalents are not a covered prescription benefit. As new products with their active ingredients are made available OTC, they will automatically be excluded from the formulary.
- Due to the wide availability of several non-sedating antihistamine products over-the-counter without prescription, all prescription medications in the therapeutic class of non-sedating antihistamines and their combinations will be excluded from our pharmacy benefit coverage.
- Prilosec (omeprazole) OTC is not a covered prescription benefit and can be purchased at the pharmacy. Similar generic prescription drugs for more severe heartburn/acid reflux are available if your doctor feels this is appropriate treatment.

Legend

AGE	Age Edit	Coverage may depend on patient age
CU	Concurrent Use Edit	Corverage or lack thereof may depend on concurrent use of another drug
G	Gender Edit	Coverage may depend on patient gender
MD	Physician Specialty Edit	Coverage may depend on prescribing physician's specialty or board certification
PA	Prior Authorization	Requires specific physician request process
QL	Quantity Limit	Coverage may be limited to specific quantities per prescrition and/or time period
ST	Step Therapy	Coverage may depend on previous use of another drug

SPECIALTY INJECTABLE CROSS REFERENCE LISTING

The following cross reference is being provided as a guide to formulary choices within prominent "specialty" injectable drug categories. General specialty categories are cross referenced to their corresponding formulary classification status and page number. This cross reference is not meant to be all-inclusive. Please refer to the Table of Contents or Index to determine formulary status of injectable medications not listed in this cross reference (e.g., Antineoplastics, Leukocyte Stimulants, etc.).
