

Tell Diabetes, NOT ME.

April 25, 2013

In America Today, Diabetes Threatens 1 in 3 People

NOT ME is a personal health initiative created by the Diabetes Prevention and Control Alliance (DPCA) and a select group of national organizations committed to preventing and controlling diabetes through community based programs.

Prevention starts when denial ends. Take this [30 second quiz](#) today and you could add years to your life. Even if your family history or present lifestyle suggests an elevated risk of type 2 diabetes, it is possible to prevent or delay the disease.
